

Mitra SK Services in Africa

Excellence in Testing, Inspection & Certification

Mitra SK is a global leader in the Independent Testing, Inspection and Certification industry, with a significant footprint across Africa. With a network of offices and state-of-the-art laboratories in South Africa, Kenya, Zambia, Zimbabwe, Mozambique, Tanzania in the south and Morocco, Egypt, Democratic Republic of Congo, Gabon and Ivory Coast in the northern and central regions of the continent, our operations cover almost the whole of Africa, providing accurate and timely TIC services, Environmental Monitoring and Port Operations throughout the region.

Mitra SK is known for quality TIC services across Africa, serving industries like Mining | Steel | Power | Cement | Metal Smelting | Fertilizer

MSK also undertakes exploration jobs across Africa for government and private mining industries.

MSK Footprint in Africa

South Africa

Mitra SK South Africa (Pty) Ltd was established in 2008 in Richard's Bay and now operates with 3 branch offices backed by state-of-the-art laboratories for services across the country. The site offices along with inspection facilities along the coast cover Port Saldhana Bay, Cape Town port, Port Elizabeth, Durban port and Richards Bay port. We are also present in Northern cape, Witbank, Rustenburg, Moinooi and other mining, mineral processing, warehouse and container handling centers.

Mitra SK has complete facilities and capabilities for inspection, testing and certification of almost all minerals such as Iron ore, Chrome ore, Manganese Ore, Iron Ores, Nonferrous, Base metals, Platinum Group of metal (PGM), all type of Ferro alloys & Coal etc.

We are well networked for round-the-clock sampling and supervision during vessel/ container loading and sample collection from rakes and trucks.

Our online vessel tracking, monitoring and reporting systems generate real time reports during transit of materials.

Laboratories

MSK laboratories in Richards Bay and Postmasburg in Northern Cape and Benrose in Johannesburg are equipped with sophisticated instruments such as Calorimeter, Carbon Sulphur Analyzer, X-Ray Fluorescence, Atomic Absorption Spectroscopy, Fire Assay, Inductively Coupled Plasma Optical Emission spectroscopy, Pelletizers and Fluxers etc. to ensure 48 hours TAT.

Morocco

Mitra SK in Morocco was established in Agadir in 2012. Its service extends to all the ports of Agadir, Casablanca, Safi, JorfLasfar, Nador, and Laayoune. It also serves the mining areas of Ouarzazate, Guelmim, Tata, Errachidia, Rissani, Oujda, Midelt, and other locations.

Office and laboratory in Agadir serves all major ports and mining areas and neighboring Ivory Coast, Democratic Republic of Kongo etc. while catering to the inspection requirements of Mauritania, Senegal, Ivory Coast, and other West and North African locations as well.

Laboratories

Mitra SK Morocco laboratory in Agadir is equipped with wet chemical and instrumental analysis facilities. It can conduct analysis of Non-Ferrous commodities, Iron Ore, Barite, Bauxite, Manganese Ore, Coal, Coke, Fertilizer, Cement and Clinker.

Service

The Mitra SK Morocco team comprises of experienced personnel, technocrats and commodity experts. Regular internal proficiency tests are conducted at our facilities, to maintain a workforce that can deliver accurate and timely results consistently.

We provide round-the-clock sampling and supervision services for vessel/ container/ truck loading and unloading jobs. Our preparation facilities are located in Agadir and Casablanca.

Our proprietary integrated Information systems for online vessel tracking and real-time monitoring generate accurate customer reports 24x7. Uninterrupted photographic insights are provided to the customers through our IT systems.

Gabon

Mitra SK started operations in 2018 at GSEZ Mineral port in Libreville. A well-equipped laboratory near port and experienced inspectors are busy to determine the quality to fulfil the export needs of manganese ore market. We also do stack sampling and supervision rake loading & unloading supervision. We are the first inspection company in Gabon accredited by Marine Merchant for TML testing.

We are the first inspection company in Gabon to be accredited by Marine Merchant for TML testing.

We have a well-equipped Mineral Laboratory in Libreville since 2019 for testing Manganese Ore with equipment such as an atomic absorption spectrometer (Flame).

Egypt

Mitra SK is known for quality and quantity assaying company in Egypt. We serve cement industries, power industries and food items importers.

We also conduct Inspection of out-bound and in-bound cargo like limestone,

dolomite, quartz, silica and fertilizers at every port.

MSK Egypt team is equipped with all the necessary equipment for all sorts of analysis and measurement.

Mozambique

Headquartered in the capital city of Maputo, Mitra S.K Mozambique Limitada conducts supervision and certification of quality and quantity of Chrome, Ferro alloys, Iron/ Magnetite, Manganese ore, Lithium and Coal. We also serve the ports of Nacala, Beira, MPDC and Grinrod, Matola.

Our team is equipped to carry out round-the-clock sampling & supervision during vessel/ container loading and unloading. Our customers can access real time reports, generated by our online vessel tracking, monitoring and reporting systems.

Tanzania

Mitra S.K. Tanzania Limited, headquartered in Dar es Salaam, conducts supervision and certification of quality & quantity of Chrome, Ferro alloys, Magnetite (Iron) ore, Manganese ore, Coal, Lithium and non-ferrous commodities.

Our expertise and presence in the ports of Dar Es Salaam, Tanga and the port of Mtwara has made us the preferred assayer in Tanzania.

Our team conducts round-the-clock sampling and supervision during vessel, container loading and unloading.

Ivory Coast, Senegal Mauritania, Liberia Democratic Republic of Congo, Kenya, Zambia & Zimbabwe

Analysis of samples is undertaken at the nearest MSK laboratory and real time tracking and analysis reports are generated by our online system.

Streamlined systems for testing, real time tracking, and reporting of the processes are available to the customers, facilitated by our advanced IT solutions and apps.

Operational Capabilities

We have state-of-the-art laboratories, strategically located to serve our clients effectively. Equipped with cutting-edge technology, we ensure

Mitra SK Services in Africa

Excellence in Testing, Inspection & Certification

precise and reliable testing across various parameters, from chemical analyses to environmental monitoring, meeting all industry standards.

Laboratory outsourcing and Port Services using proprietary IT apps with advanced online dashboards for real-time monitoring and data access.

Use of advanced technology: Utilizing drones for precise stack analysis and industrial inspections.

Training on best practices and latest guidelines: Educating samplers and supervisors to maintain the highest standards of accuracy.

Quality Management

Safety and compliance are our top priority for quality assurance & consistency.

We conduct daily instrument and equipment checklists, calibration and maintenance controls to ensure the highest standards are met.

Our laboratories are accredited to the highest standards.
